

Ahmed Shaban Ahmed | Front-End Engineer

Cairo, Egypt ✉ ahmedshaban.ua007@gmail.com ☎ +201152592726 📄 [ahmed-shaban-1756b5227](https://www.linkedin.com/in/ahmed-shaban-1756b5227) ☁ [ahmedshaban022](https://github.com/ahmedshaban022)

SUMMARY

Highly motivated Front-End Developer with 3 years of experience specializing in React.js, Next.js, and TypeScript. Proven ability to transform complex UI/UX designs into responsive, high-performance web applications. Passionate about optimizing user experiences, implementing modern frontend architectures, and collaborating effectively in agile teams.

EXPERIENCE

Front-End Developer Lookfindr

- Developed and maintained dynamic, responsive web applications using React.js and TypeScript, ensuring high performance, type safety, and minimal runtime errors.
- Implemented scalable state management using Redux Toolkit and Context API, enabling smooth and maintainable application architecture.
- Built custom features such as a calendar system with daily/weekly views, Google Maps API integration for location services, and secure authentication with role-based access control.
- Designed and developed responsive admin panels, booking systems, and landing pages, including a tipping app for salon branches, ensuring optimal user experience across devices.
- Integrated secure payment processing via PayTabs and developed responsive, cross-client compatible email templates using HTML/CSS.
- Added localization support (Arabic & English) to CRM systems, enhancing accessibility for diverse user bases.

Full-Stack Developer Autoservice

Jul 2022 - Sep 2023, Kuwait

- Developed scalable web applications using the MERN stack.
- Created admin dashboards for mobile and web using React and Material UI.
- Built RESTful APIs and handled state management with Redux Toolkit and Context API.
- Integrated Google Maps API for dynamic map interactions and distance tracking

EDUCATION

Bachelor of Physical Education (2019)
